PROFESSIONAL SUMMARY

Motivated and enthusiastic Bachelor in Computer Application (BCA) student with a strong foundation in Software Development, Artificial Intelligence, and Machine Learning. Proficient in Python and data science frameworks, with practical experience building predictive models, recommendation engines, and conversational applications. Highly capable of translating complex requirements into clean code and continually advancing skills in cutting-edge AI technologies.

TECHNICAL SKILLS

Languages: Python, SQL
Libraries & Frameworks: NumPy, Pandas, Scikit-learn, TensorFlow, Streamlit
Tools & Technologies: Git, GitHub, Streamlit, VS Code, Jupyter Notebook
Core Knowledge Areas: Machine Learning, Deep Learning Basics, Recommendation Systems, Data Visualization

PROJECTS

Movie GPT - Movie Recommendation System **LiveLink:**<https://moviegpt.streamlit.app>

- Developed an interactive movie recommendation engine leveraging machine learning and content-based filtering algorithms.
- Implemented text vectorization and cosine similarity frameworks to compute alignment scores and optimize prediction accuracy.
- Designed and deployed a responsive, user-friendly web application interface using Streamlit to display dynamic results.

Fitness Calories Burn Prediction Model **LiveLink:**<https://gymjamcaloriesghatam.streamlit.app>

- Engineered a machine learning workflow to predict calories burned during physical training sessions based on biometric inputs.
- Executed end-to-end data processing, feature engineering, and exploratory analysis on diverse fitness datasets.
- Utilized and evaluated regression algorithms to establish robust evaluation baselines and ensure high prediction metrics.

EDUCATION

Bachelor in Computer Application (BCA)

Graduation 2026

Tribhuvan University (TU), Nepal

Relevant Coursework: Data Structures and Algorithms (DSA), Database Management Systems (DBMS), Python Programming, Artificial Intelligence, Statistics & Mathematics, Software Engineering, Web Development.

ACHIEVEMENTS & ENGAGEMENT

- Successfully built and deployed multiple machine learning and AI-focused applications to solve practical challenges.
- Actively learning Generative AI concepts, LLMs, and modern neural network architectures within Leroy AI.
- Engaged in deep practical technical training, coding sessions, and tech-related community activities hosted by Leroy AI.

LANGUAGES

- Nepali:** Native / Bilingual
- English:** Professional Proficiency
- Hindi:** Professional Working Proficiency

INTERESTS

- Artificial Intelligence & Generative AI
- Open Source Contributions & Collaborations
- Software Engineering & Agile Frameworks
